## 10<sup>th</sup> European Panel Products Symposium 11, 12, 13 October 2006 Table of Contents

Keynote Address:	
Our Global Business  Mark Irle	1
Session 1: Fundamentals	
Wood, Wood-based Panels and Swelling. Is Wood Really 'Low Tech'?  John Sharp	11
New Opportunities for the Microstructural Analysis of Wood Fiber Networks  T. Walther, H. Thoemen, K. Terzic and H. Meine	23
CTMP versus TMP in Moisture Resistant Bonded MDF  E. Roffael, B. Dix, U. Hennecke, D. Krug and B. Stephani	33
Co-Polymerization Studies of Wood Resins Using <sup>15</sup> N-NMR Correlation Spectroscopy	477
A. Philbrook, S. Ernshaw, C.J. Easton and M.A. Keniry	47
High Strength Resin Impregnated Compressed Wood: Fundamental Analysis and Future Applications	50
Md.I. Shams and H. Yano	39
Session 2: Resins and Emissions	
Resins in Europe (For Particleboard, MDF and OSB)  Manfred Dunky	69
Trends in Indoor Air Quality Legislation and Monitoring – Could You Be Affected?  **Adele Brooksbank**	
Study of Volatile Organic Chemical Emissions From a MDF Pilot Plant  Alpha Barry	89
Measurement and Health-Related Evaluation of Volatile Organic Compound Emissions from OSB Made of Scots Pine	
M. Makowski and M. Ohlmever	99

Online Measuring Method for the Fast Determination of Formaldehyde Emission

Penetration and Diffusion Behaviour of Isocyanate Based Adhesives into Wood and its Beneficial Impact on Panel Performance	ĺ
C. Phanopoulos and S. Baker	123
Session 3: Raw Materials and Preparation  Zen and the Art of Making MDF  Kelvin Chapman	135
Dependence of Fines Generation From Flaking Wood on Temperature and Knife Angle S. Banerjee and T.E. Conners	147
Innovative Separation Techniques for Better Particleboards made of Waste Wood  P. Meinlschmidt and T. Gruber	155
Commercialisation of Cereal Straw Based Structural Panels in North America  Wayne Wasylciw	165
Session 4: The Built Environment  Asia Pacific Wood-Based and Biocomposites Industry: Prospects and Challenges with Special Focus on Malaysia	
J. Harun and Md. B. Hamzah  Natural Building – A Win-Win Possibility  Tom Woolley	
The Coming of Age of Timber Frame Construction in the United Kingdom  Joe Martoccia	
Reduction in Shear Capacity of Wood Structural-Use Panel Diaphragms and Shear Walls Due to Overdriven and Embedded Fastener Nailheads  A.E. Gjinolli, J.J. Vogt and D. Bower	207
Session 5: Process Control	
New Methods to Determine Fibre Quality for MDF-Production  M. Ohlmeyer, J. Hasener and H. Schmid	221
How Technical Solutions for Online Measurement Meet the Increased Speed of Panel Board Production Lines  M. Fuchs and H. Kleinschmidt	.233
Online X-Ray Inspection: Optimisation Potentials in the Forming Process Experiences of a User Regarding Efficiency K. Greten and B. Bergmann	243

Automatic Visual Monitoring of the Physical and of the Aesthetical Quality of Bare and Decorated Panels in the Production Line Robert Massen	249
Optimal Surface Smoothness Regimes for Rubberwood Medium Density Fibreboard (MDF)  J. Ratnasingam and E. Francis	. 259
Modelling of Hot Pressing of MDF A. Gupta, P.J. Jordan, S. Pang and K.M. Chapman	265
Poster Session  Effect of Rice Husk Modifications on Water Absorption Resistance of Rice Husk Based Panels  B.S. Ndazi, C. Nyahumwa, J.V. Tesha and S. Karlsson	279
Solid Binder Materials as Promising Alternatives for Liquid Resins in the Gluing of Wood Based Panel Products for Special Applications  V. Mandl, G. Wuzella, F. Obermair, W. Schnitzhofer, A. Kandelbauer	f 287
Microwave Processing of Wood: The Design of Commercial Plant <i>P. Vinden, G. Torgovnikov, P. Blackwell, J. Hann and A. Shaginov</i>	291
Value-Adding Strategies for Wood Based Panels Manufacturing in South East Asia J. Ratnasingam and C.Y. Yoon	a 299
